

PROJECTS

ENVIRONMENTAL AUDIT

Audit 8

COMMONWEALTH DEPARTMENT OF DEFENCE

Phase 1 Contaminated Site Audit, Navcommsta Harold E. Holt, Northwest Cape, WA.

A phase 1 contaminated site audit consistent with NEPM, 1999 was undertaken of five areas that may pose a risk to human health and the environment, including:

- Fuel Farm
- Fire Training Area
- Effluent Evaporation Pit
- Class IV landfill
- Antenna Decommissioning landfill.

A qualitative risk assessment consistent with AS4360 and the DoD ERT pilot tool was undertaken.

Recommendations were made for appropriate management of each site, including remedial works, further investigation and decommissioning with reinstatement.
